

Laptrap - 13" & 15" versions available

More than just a computer case. The clever design of the Laptrap transforms instantly to create a completely **functional portable work environment** for use on your lap or on any desktop surface. The Laptrap provides **full-time protection** for your laptop, instant access and lets you carry all the extra stuff that you always seem to need, yet prevents you from overloading. Its **purposeful design**, cool aesthetic and unique functionality defines a new standard for **innovative laptop protection**.

An optional backpack harness is also available. Super tough parachute hardware ensures that your technology will be securely held to your back. Its compact, foldable design is easily stored in any of the Laptrap's pockets.
